

SENIOR MOBILE DEVELOPER WITH ANDROID FOCUS

Job type: full-time
Location: Zurich or remote

Language: English (German is a plus)
Start: immediately or according to agreement

BECOME PART OF TRACKTICS

We are an award winning, innovative wearable startup based in Zurich and Frankfurt. TRACKTICS enables every football player and team to track, analyse and improve their performance on the pitch. We have developed a wearable device and created apps to make analytics easily accessible, revolutionising football forever.

YOUR RESPONSIBILITIES

- Working alongside our PO to develop our Android app together within a Scrum team
- Being involved in our feature processes, working closely with the product and design team to help refine our new features
- Bringing your existing knowledge and best practices to enrich the knowledge and experience in the team

YOUR SKILLS

- Degree in Computer Science or similar area
- Working experience as an Android software developer
- Proficiency with Kotlin and Android Framework
- You have a team focused approach, wanting to share knowledge and help develop others in the team further
- You enjoy working in an agile environment and have a self-driven personality with a “hands-on” approach
- You are a well rounded software developer who understands the importance of communication
- You care about quality, and know the best ways to achieve this both in code and for the product itself
- You have an eye for detail and a passion for a great UX and UI, you are keen to work closely with our designers and product team to achieve this

We are looking for a proactive team player with excellent communication skills in English and/or German. You will need to have attention to detail and excellent problem solving skills. We expect you to work independently and dependably. Above all, we expect you to be an active and keen team member who contributes to bringing our product to the next level.

WHAT WE OFFER

We're a powerful, interdisciplinary, highly skilled team that is growing fast and shares a huge passion for our vision of more accessible sports data. We foster a strong and fun startup culture in a relaxed working atmosphere. We offer flexible working hours together with a high degree of self-responsibility and freedom. You will find the perfect environment to learn a lot and contribute your very best to a high-potential project.
